The Unveiling of the Portraits of President Barack Obama & Mrs. Michelle Obama

- On Thursday September 8, AMHP was honored to visit the White House to commemorate the unveiling of the **official White House portraits** of President Barack Obama and Mrs. Michelle Obama. In attending this exclusive first look at the Presidential portraits, we not only celebrate this historic presidential moment, but reflect on the concept of an 'enduring presidency.' Over a decade ago, President Obama promised that he would make quality, affordable health care not a privilege, but a right by signing the Affordable Care Act (ACA) in 2010.

*The President and Dr. Biden
invite you to an
Open House Tour
on the occasion of the
unveiling of the portraits of
President Barack Obama
and
Mrs. Michelle Obama
to be held at
The White House
on Thursday, September 8, 2022
at eight-thirty o'clock in the morning*

Since then, American Muslim Health Professionals (AMHP) has been working with community, state and federal partners across the country to **increase ACA enrollment and education efforts.**

Today, **over 35 million Americans** are enrolled in ACA related coverage, and the percentage of uninsured Americans is at 8%, the lowest it has ever been in the history of our country. This legacy of care begets a legacy of commitment to improvement.

PROFESSIONAL DEVELOPMENT

September 10, 2022 -

The Unveiling of the Portraits of President Barack Obama & Mrs. Michelle Obama

- These historic enrollment numbers come on the cusp of both the American Rescue Plan Act of 2021 and the successive Inflation Reduction Act of 2022, which deliver on a commitment made by President Biden to protect and build on the ACA. Similarly, we hold ourselves and others accountable to this commitment.
- We celebrate the White House presidential portraits as the confluence of common threads within the leaders that they portray, and "as distinguished chapters in the American narrative" that inform our collective efforts to create a more equitable healthcare system for all.

GROWTH

Our growth as an organization is as follows:

- Hired **three new full time** and **one part time staff** members and will have three full-time and two part-time staff by early 2023. As a comparison, at the start of 2021, we had **one full-time staff member**.

- Elected **five new board members** with unique sets of knowledge, skills and experiences that enhanced our ability to be a comprehensive public health resource that American Muslims can count on. Our board and staff's unique diversity in subject matter expertise, profession, and background is an asset to our organization, and we look forward to continue increasing our representation in these areas to better reflect our community as AMHP grows.

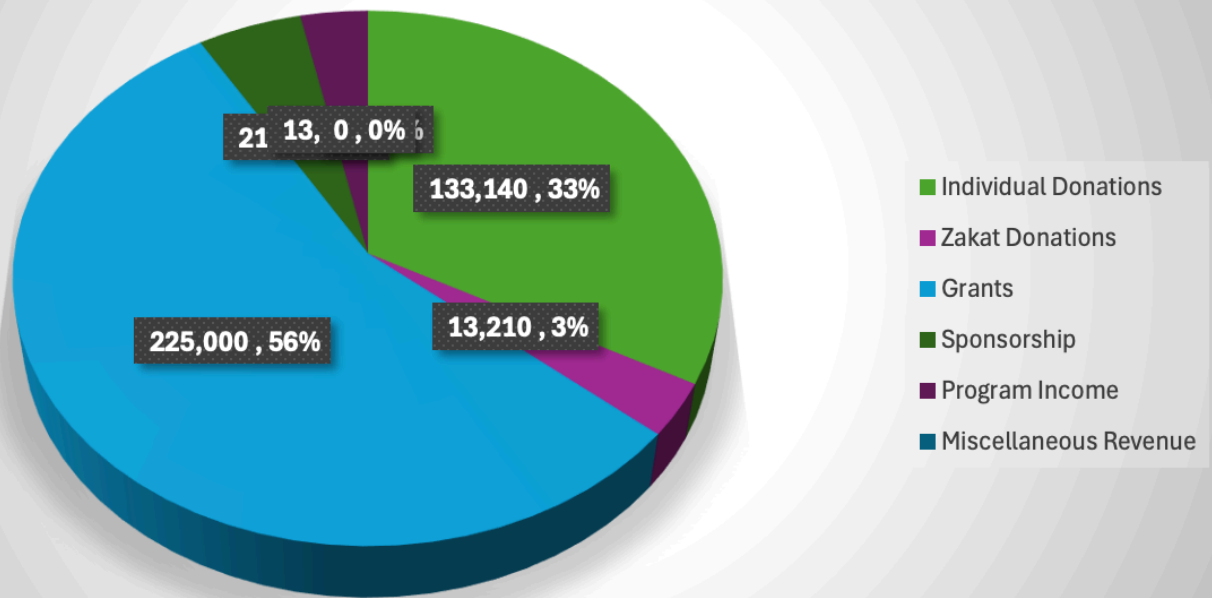

- In prior years, **less than 10%** of our annual revenue was from grants. This year, we shifted our portfolio where **at least 42% of AMHP's funding** is from grants.

- Announced the launching of **two new chapters**, AMHP-DMV and AMHP-Chicago, to expand our impact at the local level.
